Andy, Ryan:

We just received this from Alpha Graphics. So its handy all in one place I included the vendor's dimensions as well as the ones that Connor took initially at the bottom of this email.

Below are the notes I received from the site survey:

The side panels will need 3/4" extra on both left and right sides. The other measurements you have will work and I would just add 1/4 "- 1/2" bleed.

Below are the measurements taken of the doors and Side panels

Side panel - 30". W x 84.25". H
- Each side has .5" depth of panel
Front right - 19" [OBJ] W x 26 1/2". H - 22 vents
Front center - 19" W x 79" H - 61 vents
Front left - 19". W x 26 1/4". H - 22 vents
- Vent depth 1/4"
Top bar black - 72.5". W x 3.5". H
Top bar silver - 72.5". W x 2". H
Gap between slotted doors - 3" W

Dimensions taken by Connor and sent to Alpha Graphics:

30" x 84"

Please see below/ attached:

19" = width of each locker

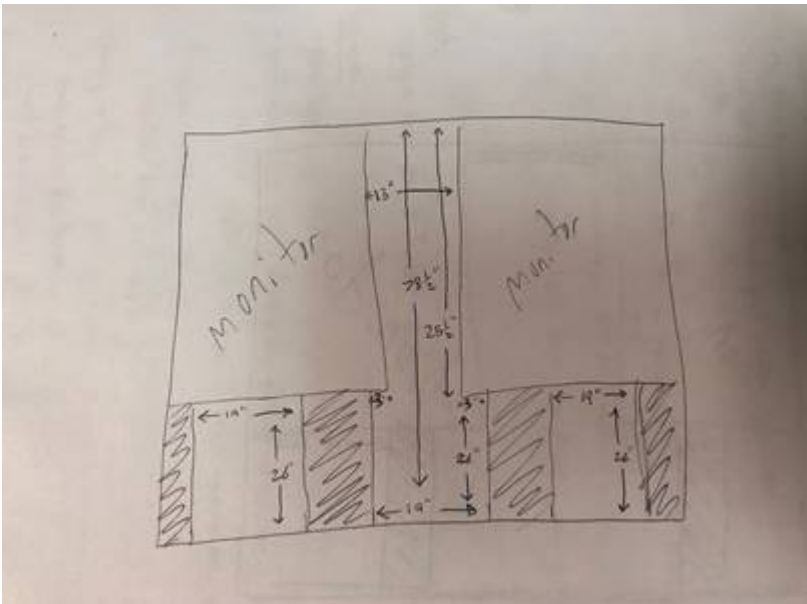

26" = height of floor to monitor base

3" = width of lips on middle locker

78 1/2" = full height of middle locker

25 1/2" = height of top of locker to monitor base

13" = width of locker between monitors
